## EDUCATION

### Aircraft Mechanical Engineering

2010 – 2012

Centennial College

### Aircraft Electrical Installer

2018

Centennial College

### Full Stack Developer

2020 – 2021

University of Toronto

## PROFESSIONAL PROFILE

I am an organized, creative, and highly efficient Web Developer / Programmer who can produce and deliver code to the very highest standards using the latest methodologies. Thriving within high-pressure, deadline-driven environments, I love the challenges that web development brings and I am always looking for the next innovative trend or idea to produce something users love.

## EMPLOYMENT HISTORY

### CPR| Software developer

*Sept 2018 – Present*

*Toronto*

Responsible for the national deployment of the CPR virtual rehab program. Liaising closely with other developers across the world, I work within JavaScript and Node.js methodologies to ensure excellent code is delivered on time and correctly.

The EMR was developed in partnership with a Telemedicine company “Dr.Jengu” and was utilized across the country to run and facilitate the “Rehab Program”. Due to strict regulations regarding patient privacy, the code had to be very robust, and security-centred.

Key responsibilities and achievements include:

- Liaised closely with third party software development teams based both in the UK and Malaysia.
- Managed the delivery of a new online portal for Rehab patients, doctors.
- Ran innovation workshops to investigate new technologies and how they could be utilized within CPR.
- Excellent knowledge across the open-source stack including OO PHP, AWS, JavaScript, NodeJS, MongoDB, Linux, MySQL.

## PERSONAL SKILLS

LEADERSHIP

ENERGY

IDEAS

TEAM PLAYER

COMMUNICATION

QUICK LEARNER

## TECH SKILLS

### ADOBE

Creative Suite knowledge including Photoshop and Dreamweaver

### BACK-END

MySQL

### FRONT-END

React, HTML, CSS & JavaScript

### OFFICE

Strong organisational, project management and MS Office skills

### REACT / REDUX

I have acted as a stand in React master on occasions.

## INTERESTS

## EMPLOYMENT HISTORY (continued)

### BOMBARDIER | Avionics Specialist

Sept 2014 – Nov 2017

Toronto

As part of the Avionics department, I was responsible for installing instrumentation in the cockpit and certifying aircrafts as "Air Worthy". Whenever a retrofit was required, I worked closely with teams in Montreal to redesign harnesses to meet new specifications.

- Reduced downtime by forecasting required "redesigns" and pre-emptively completed drawings
- Utilised my coding experience to help in harness design
- Organised and chaired meetings and workshops in-order to establish protocols to ensure all safety guidelines were adhered to.
- I managed all social media channels posting on average over 200 stories per week.

### National Home Services | Digital Coordinator

Aug 2017 – Present

Toronto

Starting as an unpaid Intern I progressed into a permanent digital marketing position where I supported experienced marketers with the launch and management of online campaigns spanning digital, social, email and more.

- Increased sign-ups by 18% through the introduction of new social media initiatives.
- Helped the company gain over 200K followers.
- Organised and chaired meetings and workshops in-order to establish new content generation ideas.
